SKILLS

Cloud & DevOps

AWS · Azure · Azure DevOps · Jenkins · GitHub Actions · Kubernetes · Docker · Packer

Infrastructure & Automation

Terraform · Bicep · YAML · CI/CD Pipelines · Cross-Cloud Networking

AI & Automation

Azure AI Foundry · AI Agent Integration

Programming & Scripting

Python · Bash · PowerShell

Monitoring & Observability

Grafana · Prometheus · FastAPI · PostgreSQL

MICHAŁ GAWRON

SENIOR CLOUD ENGINEER & TECH LEAD | IAC | CLOUD AUTOMATION (AWS & AZURE & ON-PREM)

Senior Cloud Engineer and Tech Lead with expertise in AWS and Azure, specializing in Infrastructure-as-Code (Terraform, Packer, Bicep) and cloud automation pipelines. Proven track record in building secure, scalable, and compliant multi-cloud solutions, with additional experience integrating AI agents into cloud workflows. Strong background in test automation and CI/CD enables end-to-end ownership of infrastructure delivery

WORK EXPERIENCE

SENIOR CLOUD ENGINEER & TECH LEAD | NOVO NORDISK

Apr 2025 – Present

- Lead a 3-person cloud team as Tech Lead (since Mar 2026) while continuing to own hands-on workstreams.
- Own GIPS, a multi-cloud golden image platform: Packer images with pre-installed software, standardized and continuously compliant across a hybrid Ubuntu, RHEL and Windows Server fleet.
- Own MCITI, a multi-cloud VM provisioning pipeline (Terraform, Bicep, GitHub Actions, Azure DevOps) delivering consistent, compliant VMs for product teams.
- Design Infrastructure-as-Code modules (Terraform, Bicep) for reusable, compliant deployments across AWS & Azure.
- Built AI agents in Azure AI Foundry, bringing intelligent automation into cloud workflows.
- Automated patching and lifecycle management as code via Automation Maintenance Configurations (AMC).
- Interview and hire for the team: designed the technical interview process and scorecard for a Senior Cloud Engineer role.
- Partner with product teams and security to integrate CI/CD flows and keep deployments audit-ready.

Test Automation Engineer | Nordea (Warsaw, Poland)

August 2024 – Apr 2025

- Automated backend XML communication tests using Robot Framework and improved stability by reducing inherited failures from 50% to 0%.
- Built Jenkins pipelines for test execution and integrated healthcheck results into a FastAPI and PostgreSQL solution visualized in Grafana.
- Configured Dockerfiles and Kubernetes deployments to support CI/CD pipelines.
- Optimized test suites with randomized data and templating for flexibility and robustness.
- Verified REST API communication with Postman and executed tests in Linux environments using JupyterLab.

Test Automation

Selenium · Playwright · Robot Framework · Appium · Pytest · Behave · Automated Regression Testing · End-to-End Test Suites · Test Strategy Design

Additional Tools & Platforms

Jira · Xray · Postman · GitLab · Confluence · Linux Environments · Docker Compose

Test Automation Engineer | Novo Nordisk (Remote)

March 2024 - July 2024

- Developed and maintained automation tests integrated within Azure DevOps for XaaS projects.
- Focused on high security and compliance standards.
- Employed advanced Python scripting with the Behave framework to ensure rigorous testing standards, significantly improving deployment quality and security compliance.
- Collaborated with manual verification teams to develop automated tests, replacing and complementing manual tests.

QA Engineer | Lea (Remote)

June 2023 - March 2024

- Led mobile automation projects with Python & Appium, reducing defects by 25% and improving sprint delivery.

E-Commerce Implementation Specialist | eService

January 2022 - June 2023

- Built Selenium-based regression tests and advised on e-commerce payment API integrations.

System Implementation Specialist | Marcel S.A

June 2020 - January 2022

- Conducted functional/integration testing for medical software; supported R&D teams with QA processes.

➤ EDUCATION

POLISH-JAPANESE ACADEMY OF INFORMATION TECHNOLOGY

2017 - 2021 Engineer, Information Management (5)

Specialization: IT System Implementation

2021 - 2023 Master, Information Management (5)

Specialization: Business analysis and Big Data applications

➤ HOBBIES

- Proud owner of a gecko, cultivating an interest in herpetology.
- Regular martial arts training, enhancing discipline, focus, and physical stamina.
- Passion for traveling, expanding worldview, and improving problem-solving abilities.
- Enthusiast of space and astronomy, staying updated with the latest discoveries and advancements.
